# HAVE YOU TRIED EVERYTHING? DON'T GIVE UP - THERE'S HOPE

First and foremost patients need to understand the reality that "no single modality exists in medicine to solve a person's health problems 100%" - M. Chen M.D., Diplomate, American Board of Hospital Physicians

FOR 40 YEARS, almost every NAET® patient reports similarly astonishing results that include improved digestive issues, metabolic functions, and better sleep in addition to improving their health, with no other intervention than NAET® alone. Before their treatment plan is complete, every patient reports having more energy. Patients find NAET® often resolves more issues than what brought them in.

USING NAET®, Dr. Nambudripad confirms in clinical studies what the sciences, CDC, government and medical schools teach in her classic Say GoodBye to Illness and Journey to Better Health, among her many other titles. She illustrates how commonly overlooked

nutritional allergies, sensitivities or chronic malabsorptions from gut immune dysregulation, caused her thousands of patients' health conditions, that NAET® resolved.

We want to caution individuals are constitutionally different with anatomic variations, and results vary depending on other factors and lifestyle. Unfortunately there are no shortcuts in NAET®. Therefore, we respectfully advise anyone seeking a quick fix or a shortcut not to begin for many reasons.

Consuming greater amounts of vitamins, supplements or vitamin-rich diet without clearing a sensitivity, allergy or intolerance to it will only upset a sensitive patient's immune system and intensify its responses, leaving the patient feeling worse: while this is not the case for persons without intolerances, sensitivities or allergies.

With complex organs and systems, it's clear the body like any vehicle cannot function well if fuel or nutritional intake isn't being absorbed properly. It begins to show forms of wear, often as pain, and other symptoms, and gradually breaking down into diseases. NAET has been the answer for 40+ years. For some it's been years of sensitivities and finally after completing NAET their systems are absorbing nutrients well, allowing metabolic processes to resume functioning effectively and helping patients have more energy.

Some of the best educated Physicians mistook NAET's Revolutionary results as mystical or beyond their understanding, despite being educated early in their careers in required Basic sciences on the damage & diseases nutrient malabsorption cause. Perhaps they'd learned it so long ago or became so specialized & advanced they forgot the basic biomedical connection between chronic nutrient malabsorption and the resulting range of disease & conditions. NAET resolves these with basic Bionutritional Science & Immune Therapy. Unfortunately many unlucky patients continue to suffer, even dying before finding NAET, as noxious sensitivities compound & worsen the longer they're unresolved. With simple desensitization of intolerances & toxic immune overreactions, inflammation is reduced. NAET stops the destruction of organs, systems, tissues, & stops symptoms.

## Allergies and Intolerances

**YOUR LABWORK**, diagnosis, symptoms and reactions must confirm your condition prior to treatment. In addition to your Lab Diagnosis, NAET® uses NST as a second line of confirmation of items to desensitize. We accept labs from your PCP or specialist or we'll help order new labs.

IMMUNOTHERAPY begins with up to 3 times a week and the process often lasts years. Similarly NAET® only recommends a weekly commitment for patients to progress timely and see results, as treatments build upon each other and frequency and intensity matters. This is outlined in the NAET® protocol and Guidebook. NAET® is a collaborative therapy that requires patient involvement. Along with the treatment plan, the NAET Guidebook, Say Goodbye to Illness and an Accustim are required materials. Patients can conveniently purchase any of the books from The NAET® clinic, NAET.com, or secure a copy elsewhere.

*"There is hardly any human disease or condition where allergic or sensitivity factors are not involved."*

*-Devi S. Nambudripad D.C., L.Ac.,  
M.D.(WI), Ph.D., (Acu)*

Government health agencies like the CDC, medical schools, and all the biological and nutritional sciences teach that many **health conditions are caused by nutritional deficiencies or malabsorption**. According to Western Biomedicine, Vitamin B deficiency from malabsorption leads to illnesses like memory loss, heart problems, depression, skin disorders, migraines, mood swings, numbness, tingling, irritability, poor sleep, insomnia, hair loss, and many more conditions. Vitamin C malabsorption causes depression, fatigue, rashes, mood swings, serious diseases like scurvy, and more. Vitamin D deficiency leads to depression, fatigue, hair loss, getting sick easily and more. Zinc and other mineral malabsorptions cause their own list of issues. Specific vitamins like folate and B12 are necessary to produce healthy DNA. Intolerance or deficiency in these lead to DNA replication disorders, a common cause of various Autoimmune Diseases. NAET® helps patients resolve these intolerances and in turn help resolve even their most challenging autoimmune diseases.

**NAET® HAS DESENSITIZED PATIENTS SUCCESSFULLY** for these conditions and countless more! Like Immunotherapy, NAET® desensitizes Type I-Type IV sensitivities and allergies known to cause inflammation, metabolic syndromes & a myriad of health issues. NAET® **uses basic nutritional science with an advanced form of immunotherapy that helps the body absorb nutrients instead of the immune system attacking them and wasting them**. This enables restorative healing. NAET accomplishes this through a proven scientific treatment protocol that any medical doctor or scientist trained in NAET® can replicate with similar reliability and results.

**ACCORDING TO DR. NAMBU DRIPAD'S** 10 year study and NAR Foundation's published study featured on Fox News Healthtalk, completing NAET® protocol along with components consistently help patients restore 70-80% of their health. Understandably many patients opt to do their specific sensitivities/allergens instead of nutritional components, seeing amazing results either way they choose. Some need to treat more items than others depending on individual levels of sensitivity/allergy. IgE allergies are uniquely difficult and no specialist has figured out how to reduce them for patients with a high reading or high class IgE. Some may need additional treatments and seasonal maintenance, depending on their IgE levels or if they have higher levels of sensitivity or intolerances, or for items like pollens or flu viruses that have variants. **NAET® HAS HELPED MILLIONS WORLDWIDE**, many completely overcoming their conditions over those 40 years! Some patients report their relief lasted 30+ years. Our bodies, like any vehicle, require proper care and maintenance.

Your NAET® Clinic physicians are trained in Western medicine, Traditional Chinese Medicine (TCM), Nutrition, NAET® and other disciplines. They'll help with specific supplementation recommendations to effectively replenish nutritional deficiencies. This is done only after clearing a sensitivity, allergen or intolerance to improve your condition(s), strengthen your system, and help you feel your best.

**SUPPLEMENTS ARE NOT CREATED EQUAL.** The NAET® Clinic carries a few select brands of high-quality, whole-food-based Nutritional supplements and TCM formulations that Dr. Devi used for decades to help her patients. Our brands of nutritional supplements are not accessible for purchase at regular drug stores and are available exclusively to healthcare practitioners. With The NAET® Clinic's comprehensive evaluation, our patients get an integrative approach to treatment that includes personalized TCM assessment and care in one setting.

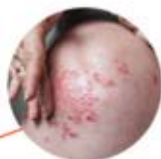

**MEDICAL ADVICE DISCLAIMER:** The information, including but not limited to, text, graphics, images and other material contained on this pamphlet are for informational purposes only. No material contained here is intended to be a substitute for professional medical advice, diagnosis or treatment. Always seek the advice of your physician or other qualified health care provider with any questions you may have regarding a medical condition or treatment and before undertaking a new health care regimen, and never disregard professional medical advice or delay in seeking it because of something you have read on this pamphlet.

# WHAT CAN NAET® DO FOR YOU?

## AUTOIMMUNE DISEASES

## ECZEMA

## FREEDOM FROM ALLERGIES

## IBS

## FOOD ALLERGIES & SENSITIVITIES

## INSOMNIA

And many more...

SOME IMMUNE THERAPIES can take years before patients see relief. However, NAET® patients notice and feel benefits as soon as 25 hours after a therapy session, and even during. Even those that struggled with lifelong conditions finally get to experience the pleasure of foods they've had to avoid their whole lives. In general with NAET®, patients don't need repeat treatments to tolerate a previously intolerable item.

### NAET® 100% SATISFACTION QUALITY ASSURANCE GUARANTEE:

At The NAET® Clinic fidelity is important to us. We strictly adhere to the NAET® Founder Dr. Nambudripad's protocol that has worked safely and successfully for patients for 40 years. There're 15 fundamental treatments in the NAET® protocol. **Session #6 includes an evaluation of progress and symptoms. At that point if a patient does not feel or see any progress in overall health or symptoms, we encourage stopping** and seeking more acute medical care and additional lab testing, or some other form of healthcare, as nutrition isn't the only factor in diseases. Your health and progress alongside safety and satisfaction with results is our #1 priority. And with that comes our Promise: the cost of the Protocol is prorated with the unused 9 sessions refunded no Qs Asked

## WHAT DOCTORS & CELEBRITIES SAY ABOUT NAET

Speaking as a board certified allergist, retired after ten years of practice in internal medicine and thirty years in allergy and immunology, as well as a patient over many years, I am in a position and well qualified to evaluate NAET. It exceeds, by far, any other presently existing treatments for allergies, It is speedy, specific and immediately productive.

**Charles G. Gableman, M.D. Fort Worth, TX, Diplomate, American Board of Allergy & Immunology**

Source: Say Goodbye to ADD and ADHD

Devi Nambudripad's Allergy Elimination Technique is truly remarkable... Unlike other doctors, Dr. Devi offers a solution that is attainable. She evaluates the physical and emotional health and treats as one unit. I highly recommend this technique for anyone who suffers from allergies.

**Dylan McDermott, Star of ABC TV series "THE PRACTICE"**

Source: Say Goodbye to Illness, Journey to Better Health

I have suffered for many years from fatigue & exhaustion from environmental and food allergies, as well as chronic recurring viral and bacterial infections. Dr. Teitelbaum, a prominent CFS doctor was treating me but I was sensitive to so many supplements that he suggested NAET treatments with Dr. Devi. Today I feel like a new person & look younger, healthier and have more energy than I've had in years! NAET has given me a new lease on life & I am eternally grateful to Dr. Devi & her staff.

**Alana Stewart, Actress and Talk Show Host**

Source: Say Goodbye to Asthma

As a medical director trained in allopathic medicine and practicing for over 16 years, I have learned that NAET is an incredibly powerful tool in healing the whole person rather than just treating the symptoms. NAET detects the underlying causes of asthma and other allergy-related illnesses, and treats the disease naturally and effectively.

**Lisa Camerino, M.D. Portland Oregon**

Source: Say Goodbye to Asthma

NTT (Nambudripad's Testing Technique) gave me the best tool to evaluate my patients' health disorders & NAET taught me the greatest healing technique to eliminate the problem almost instantly and painlessly. NAET has truly revolutionized the practice of medicine! I applaud Dr. Devi for developing this unique technique & sharing it with the world! I have no doubt this is going to be the "Medicine of the Future."

**Robert Prince, M.D., Charlotte, NC**

Source: Say Goodbye to Illness

The way we practice medicine today is not the same way it used to be practiced 50 or 100 years ago. As a pediatrician, UCLA trained medical acupuncturist, and NAET practitioner, I plan to treat and prevent chronic illnesses and minimize side effects of pharmacotherapy with NAET so children can achieve their full potential without the undesirable side effects of their medications.

**M. Chen, M.D., Los Angeles, CA, Diplomate, American Board of Pediatrics; Diplomate, American Board of Hospital Physicians**
